

Title	EMIS read only data sharing – Hospices and GP practices in Coventry and Warwickshire.
Data Controllers	<i>Participating Coventry and Warwickshire GP Practices and Mary Ann Evans Hospice, Shipton Home Nursing, The Shakespeare Hospice, Myton Hospice will act in the capacity of Joint Data Controllers.</i>
Data Processors	
Duration of the Processing	Ongoing subject to annual review.
Nature and purposes of the Processing	<i>Mary Ann Evans Hospice has highlighted that the ability to share read only data on a two-way basis with GPs is of critical importance for safe and effective patient care, particularly given that hospices do not yet have timescales for when they will be able to access the Integrated Care Record. A pilot enabled two-way read only access for North Warwickshire GP practices and Mary Ann Evans Hospice to read each other's EMIS record for relevant patients. A successful pilot took place between July and October 2023 and this has now been extended.</i>
Type(s) of Personal Data	<i>Name, Address, Postcode, Telephone number, Email address, Date of birth, Gender, NHS Number, full medical record stored on GP clinical systems, race or ethnic origin health or clinical data</i>
Categories of Data Subject	<i>Patients registered at a GP Practice in Coventry & Warwickshire.</i>
Legal basis for processing	<p>Article 6(1)(e) Public Task: <i>the processing is necessary for the performance of a task in the public interest or for official functions</i></p> <p>Article 9(2)(h) Health or social care: <i>processing is necessary for the purposes of preventive or occupational medicine, for the assessment of the working capacity of the employee, medical diagnosis, the provision of health or social care or treatment or the management of health and social care systems and service</i></p>
